MEMORANDUM FOR MESSRS []
[]
[]

SUBJECT: Proposed line of psychological warfare.

1. Your attention is invited to the attached memorandum which has been submitted to me by [] as the result of something which I encouraged him to do apropos of certain remarks which he made to me recently. I am very anxious to receive your reaction to the essential points in this proposed line of attack. Specifically, I request that [] obtain Dr. HILGER's views, although I do not believe that this should be done by way of submitting the memorandum to him; that is, the general line of approach should be tried out on HILGER by [] orally to see whether it would make any sense for us to try this one. It would probably also be helpful to get the views of a few of our Russian experts in the Department. Next to Mr. Kennan, I should think Mr. Bohlen would be the best on this.
